

BSc (HONS) SPEECH AND LANGUAGE THERAPY

CAO CODE: CK705

School of Clinical Therapies

Department of Speech and Hearing Sciences

WHAT IS A SPEECH AND LANGUAGE THERAPIST?

Speech and Language Therapists provide life-changing intervention and support for children and adults who have difficulties with communication, eating, drinking and swallowing

WHERE DO GRADUATES OF SPEECH AND LANGUAGE THERAPY IN UCC WORK?

Many graduates go on to employment in clinical settings in the community where they work with children and adults, in voluntary organisations such as intellectual disability services or services for people with autism spectrum disorders (ASD), and in hospital settings where they may work with people following a brain injury, people with degenerative disorders, or care for the elderly. Some graduates choose to continue their education in UCC or other universities. Some graduates choose to work in the research aspect of speech and language therapy. Graduates take the opportunity to travel and work abroad. Recent graduates are working in the UK, the Middle East, Asia and Australia.

PROGRAMME STRUCTURE AND CONTENT

The BSc (Hons) Speech and Language Therapy is a four year, full-time course. The aim of the programme is to educate, train and support individuals to a high standard. The completion of the BSc (Hons) Speech and Language Therapy in UCC provides students with an academic qualification that is required in order to apply to register with the Irish Association of Speech and Language Therapists (IASLT) and the Irish health regulator CORU.

Teaching Methods

Teaching methods include: practice education, lectures, workshops, anatomy labs, and Problem-Based Learning (PBL) tutorials. The aim of PBL is to encourage independent,

self-directed learning in group settings. PBL prepares students to develop the functioning knowledge which allows them to integrate the academic knowledge base, the skills required for that profession and the context for using them to solve problems in the workplace.

Clinical Placement

Practice Education comprises of 450 hours of clinical placement spread throughout the programme in years 1, 2, 3, and 4 to facilitate the application of knowledge gained during the academic year.

Practice Education is delivered through a partnership between the University, the Health Service Executive, and voluntary organisations. These placements take place throughout Ireland.

Primary Community Care Centres

Intellectual Disability Services

School-Based Services

Acute Care Settings

Rehabilitation Settings

Long-Term Care Services

Placement Partnerships

Course Outline

Year 1

Foundations of Speech & Language Therapy

Communication Disorders
Communication, Learning & Behaviour Across the Lifespan
Language Acquisition
Speech, Hearing & Swallowing Sciences
Academic & Professional Learning
Anatomy
One-week Clinical Placement

Year 2

Speech & Language Therapy for Children & Young People

Communication Disorders in Children
Speech, Hearing & Swallowing Sciences
Language Sciences
Neuroanatomy
Research Methods
Weekly Clinical Placement & Block Clinical Placement

Year 3

Speech & Language Therapy for Adults & Older People

Communication Disorders in Adults
Research Methods
Language Sciences
Speech, Hearing & Swallowing Sciences
Neurology
Weekly Clinical Placement & Block Clinical Placement

Year 4

Integrating Knowledge in Speech & Language Therapy

Research Based Dissertation
Dysphagia
Advanced Research and Practice
Mental Health
Two Block Clinical Placements

For more information about the course content please see the Book of Modules for detailed descriptions: www.ucc.ie/modules/descriptions/page081.html

ENTRY REQUIREMENTS

School Leavers: Six subjects in the Leaving Certificate from: Irish, English, another language, Mathematics, a laboratory science subject (i.e. Chemistry, Physics, Biology, Physics with Chemistry (joint) or Agricultural Science) and one other are recognised as meeting minimum entry requirements.

Minimum of HC3 grade in two subjects including a science subject and a language (other than English) are also required.

For entry requirements for mature students please see: www.ucc.ie/en/ck705

For entry requirements for international students please see: www.ucc.ie/en/international

Fitness to Practice: www.ucc.ie/en/academicsecretariat/fitnesstopractise

POSTGRADUATE OPPORTUNITIES

There are many different opportunities for students who wish to further their education after completing the BSc (Hons) Speech and Language Therapy such as:

- MSc Audiology
- MSc Degree by Research
- MSc Degree in Evidence Based Therapy Practice
- PhD by Research

For more information please see: www.ucc.ie/en/study/postgrad

WHAT OUR STUDENTS SAY

Jennifer, Research Assistant,
It's great to have the opportunity to return to UCC to carry out research in the area of speech and language therapy. I really enjoy this work environment and it is really motivating to know that I am contributing to evidence-based practice for working clinicians.

Oonagh, Practising SLT,
The course gave me a great foundation in both theoretical knowledge and practical skills. After graduation I took the opportunity to work abroad in Singapore. This was a great experience both personally and professionally.
